

To Whom It May Concern:

It is with great pleasure that I write this letter of recommendation for Ms. Katherine Seeds. I have had the privilege of working with Katherine (Katie) and observing her classroom throughout her year and a half of teaching at Ivy Collegiate Academy.

I was honored to first meet Katie one week before the beginning of the 2013/2014 school year. I was very impressed with Katie's excitement to become a teacher and her desire to implement her great ideas for her students.

As department chair of student services, I have observed Katie in her teaching role while she worked with students of exceptional needs. Her skills and work ethic were invaluable to observe as she constantly reached the learning needs of all her students.

When describing Katherine Seeds, words such as professional, caring and considerate come to mind. She believes that every student can learn and deserves the opportunity to learn in a supportive environment. Her students appreciate her kindness and support she gives them.

It has been a pleasure for me to know Katie and experience the love and dedication she has for her students and her profession. Her hard work and professionalism are greatly appreciated by her peers and students at Ivy Collegiate Academy.

Sincerely,

A handwritten signature in cursive script that reads "Aaron Ayers". The signature is written in black ink and has a fluid, connected style.
